

We are Looking for Your Feedback...

Your Datacon software has been through many changes over the past few years. These changes have been with you in mind. Great care has been taken to streamline your workflow as well as to make the software more intuitive, adding features you need all while retaining the strict audit controls and data security you've come to know and expect.

So, this newsletter is dedicated to you, your feedback, and experiences while using your Datacon software. We'd like to get an idea of how our clients are using and taking advantage of the features in our software. We encourage you to make copies of this Newsletter and share with your co-workers.

Currently I'm using a Mac / PC as a workstation.

I've been a Datacon user _____ years (you, not the practice)
